

From the Highlands of Scotland come the award winning band COLORADO. Since they formed in 1978 the band have toured in over 26 countries with some of the biggest names in country at many famous venues including the Grand Ole Opry in Nashville. They have released 10 albums, featured on radio, TV and were voted top UK country band for 9 years in succession.

Members of the group have changed over the time, but the distinctive core sound of COLORADO has stayed strong. The band is centred around the JACK family from the small village of Golspie and features Kevin & Trevor Jack sons of original member Geordie Jack along with co-founder Dado Duncan, who are both still core to the band.

This unique band draw from their great range on instruments, voices, musical styles and decades of experience to really excite the lively crowds and put on a high energy show. They blend country, with folk and rock like no other band and project their changing sound with fiddle, mandolin, banjo, guitars, accordion, drums and their thick harmony vocal sound with great skill. Playing original and favourite songs, the crowds love the party good time atmosphere which the band brings to the stage and these boys always leave a happy audience.

With such a solid history & experience, this band will go into the future with continued success. More music, more albums, more great live shows is what you can expect to keep coming from COLORADO.

In between dates in a busy diary the band are in the early stages of a new studio album, which they hope to release later this year.
