

"Few bands have 'chart success' written all over them like Jetty Road." **Canterbury News, UK**

"Jetty Road are not trying to be just another band, imitating something that's been done before. This is where their true individualism shines through in many wondrous colours." **Laura Bethell, Maverick Magazine, UK.**

"As good as anything that has come out of the US" **Deb Minter, Capital News, AUSTRALIA**

"Even better live, quite breathtaking in all honesty." **Chris Jackson, International Americana Festival, UK**

Jetty Road have forged their own path and decided to go for it in a big way. 2009 saw the release of their new album, *Life at a Million Miles* - a new chapter in their remarkable journey. This album has a distinct flavour about it – confident with no apologies.

"I stopped retreating to the backline, and I went out and I started playing the front nine" together with *"I've always played my cards just how I wanted"* and *"This time I'm digging my feet down in the sand"* are lyrics that capture the high and lows of their sometimes 'crazy' life, along the amazing road they've travelled to get them to where they are today.

Twin sisters Lee and Paula, along with Julian and Simon make up Jetty Road. Their music has been described as *'a tapestry of rock, pop and country, with a hint of folk.'*

Imagine The Corrs, Fleetwood Mac and The Dixie Chicks with a unique Australian edge. The four friends met whilst studying at Music College; however it wasn't until a few years later that they began writing

and recording their own music and Jetty Road was born.

Released in April 2009 through Compass Bros Distribution, *Life At A Million Miles* is the third album by the Victorian 4 piece. Their previous albums, *Full Circle* released in 2005 and *Dirt Roads City Lights* released in 2007 saw the band garner the attention of the country music industry, both locally and internationally.

After releasing their debut single *Run To You* in 2005, the band have had seven tracks in the Top 20 on Australian radio. *Heart And Soul, Real Smooth Cowboy, I Wanna Go Home, City Lights* and most recently *Good Times*, which sat in the #2 position for four weeks, and the smash hit *Million Miles*; it rocketed to #1 position and remained there for six consecutive weeks. Five of the video clips for these tracks made it to the Top 10 on CMC with *City Lights (2008)* and *Million Miles (2009)* reaching the coveted #1 position on the CMC (Country Music Channel) chart. Since 2008, Jetty Road has been creating a buzz for itself in North America – playing main stage at the biggest country

festivals on the continent. June 2008 saw Jetty Road performing on main stage at Dauphin Countryfest in Canada. To date, Keith Urban and Jetty Road are the only Australian acts to ever perform at the festival. Dauphin Countryfest is Canada's longest running music festival, and other performers in 2008 included country music super-star Alan Jackson, Lonestar and 2008 Grammy Award winners Emerson Drive.

In 2009, Jetty Road shared stages with Taylor Swift, Kenny Chesney, Brooks & Dunn and Tim McGraw at WE Fest in the USA, Merritt Mountain Music Festival and Big Valley Jamboree in Canada. Further more, the band has performed in Nashville at the prestigious Aristo Media Global Artist Showcase during the annual CMA Music Festival and were the first country music artists to perform at the Hard Rock Café in Paris whilst on tour throughout France and the United Kingdom.

Along with strong chart success, Jetty Road have twice taken home the TIARA Award for Best Group (2008 / 2009) the

Victorian Album of the Year at the 2008 Victorian and National Country Music Awards. In January 2008 they were honoured with a finalist nomination at the 36th Country Music Awards of Australia for Best Group. October 3, 2009, Jetty Road dominated at the 2009 Australian Independent Country Music Awards by winning Australian Independent Group of the Year, Australian Independent Album of the Year and Australian Independent Artist of the Year.

At the End of September 09 Jetty Road returned to Australia – after a world tour of 90'000 kms and 41 shows in 6 different countries on 3 continents while at home their single "A Million Miles" was for 6 consecutive weeks on the No.1 spot in the Country Radio Charts. **The CMAA** (Country Music Association Australia) has nominated **Jetty Road** for 3 awards. These most important awards of the Australian Country Music Industry will be given at the world famous Tamworth Festival, which transfers each year in January the whole town into a music temple. And as the newest addition to their career, they have been invited to perform at the award show January 23, 2010. Cross your fingers that Jetty Road will leave the stage as winners of at least one Award.
